

## ABSTRACT

Asus Store is a Web-site which aims to make the User order their desired ASUS products or accessories for their daily user. Presently, the customer can order a keyboard, mouse and many such ASUS accessories of their own choice.

In this proposed system the end user can order their desired ASUS products such as laptops, keyboards and many such accessories which allows customer to make their daily life hassle-free and smooth.

The customer can order any product he/she likes and so on the admin can have a detailed view regarding the particular order sent by the particular customer.

## ACKNOWLEDGEMENT

The feeling of gratefulness to any one's help directly arises from the bottom of heart. A small but an important and timely help can prove to be a milestone in one's life.

This project is dedicated to all the people, whom i met, took guidance, talked, interviewed and learned something from them. At this occasion I sincerely thank all of them while submitting this project report.

I would like to thank **Mr. MEET THAKAR** for giving time-to-time valuable guidance during the project and giving me guidance in taking my curriculum decision and choosing, initiating and getting on with the project.

I always have felt the invisible help from the almighty, without the blessings of almighty, I could not have succeeded.
